

# ✦ Quilt Beginnings ✦

## Premier Plus Software Basics

June 18, 10 a.m.-4 p.m.

### Supply List

**Instructor:** Libby Van Treese

**Dates:** 10am-4pm,

**Project description:** Learn the power of software. Spend the morning creating an In The Hoop Zippered Box. We will learn how to use the borders tab, insert a zipper in the hoop, add lettering & flourishes, grouping designs & work with thread colors. In the afternoon we will stitch out the designs you have created. Kit will be provided for stitch out. **Bring your lunch.**

**Book:** *None needed*

### **Supplies:**

1. Computer with software loaded and ready to use. If using Premier Ultra or earlier version of software make sure you bring dongle.
2. MOUSE for your computer. Mouse pads are VERY DIFFICULT to use for creation of designs. An external mouse will make your life MUCH easier.
3. USB drive for transferring design to sewing machine OR cord if you direct connect.
4. Sewing machine with Embroidery Unit and accessories, (be sure to bring your embroidery foot)
5. 240 x 150 Hoop (6" x 10" for those of you that work in inches) If you have a Metal Hoop it works particularly well for this project
6. Bobbins, you can use embroidery weight bobbin thread. Empty bobbin so you can wind one to match project if desired.
7. Your favorite color embroidery threads for stitch out, Four or Five colors (one will be for lettering)
8. scissors to clip threads.
9. USB stick that is formatted to work in your sewing machine (preferably empty)
