

 Quilt Beginnings 
AccuQuilt Go! Basics
Supply List

Instructor: Joyce Petrek

Dates: Friday, November 13, 10 - 11:30 a.m.

Project description: Do you have an AccuQuilt Go! Cutting machine and have never taken it out of the box? Are you not confident about using your machine? Do you have questions?

This is a lecture/demo class. You don't need to bring anything but your questions! We will discuss how to place your fabric to get the perfect cut, how many layers you can cut depending on the fabric type, what size your fabric should be to be placed on your die, just to name a few.

Join us to ensure you are a confident AccuQuilt owner. We hope to inspire you, so you can cut time to quilt more!
